Orlando, FL | 407-692-6731 | warren.george09@gmail.com | LinkedIn

EDUCATION

University Of Florida **Gainesville, FL**
Bachelors of Arts in Digital Arts and Sciences **Expected: May 2029**
Minor in Computer Science | GPA: 3.47

Relevant Coursework: Introduction to Game Design, Programming Fundamentals, Digital Technologies, Game Content Production, Game Systems Development

WORK EXPERIENCE

The Agency | Full Stack Developer **November 2025 - Present**

- Develop web applications for clients using modern full-stack technologies and industry practices, following responsive design standards
- Helped develop an AI presentation transformation prototype for Disney Advertising, converting basic decks into Disney-branded presentations

University of Florida Design-A-Thon | Internal Outreach **October 2025 - March 2026**

- Promoted a 24-hour UI/UX and product design competition to campus organizations and GBMs, reaching 200+ students
- Managed end-to-end event logistics including venue layout, participant check-in, scheduling of interactive activities, and equipment setup

IndieCade | Game Design Intern **June 2026 - August 2026**

- Collaborated with a team of developers and designers to conceptualize and develop a game for Climate Jam 2026, an international game development competition
- Programmed core gameplay mechanics using Godot and GDScript, while implementing sound effects and audio transitions to support the game's overall experience
- Earned an Honorable Mention for the team's game in Climate Jam 2026

PROJECTS

UF Open Source Hackathon **September 2025**

- Collaborated with a team in order to develop and implement a stable and functional web application under strict time constraints
- Programmed both front-end and back-end features with the usage of programming languages like HTML, CSS, and JavaScript

Escape Phoebus | Co-Programmer | NES Game Jam 2026 **May 2026 - June 2026**

- Collaborated with a team to develop a first-person dungeon-crawling RPG featuring turn-based combat, party management, and dungeon exploration
- Programmed gameplay systems involving elemental weaknesses, skill mechanics, and turn-based action costs using Godot and GDScript
- Placed 11th out of 130 entries in the NES Game Jam 2026

SKILLS

Programming and Web
HTML, CSS, JavaScript, Python, Adobe Suite, Godot, GDScript
